MESSAGE.

To the Senate and House of Representatives of the Legislative Council of Florida:

We have much cause to be thankful to the Giver of all blessings for the dispensations of the past year. Uninterrupted health has prevailed throughout our country, and abundance is every where to be found. One cause alone continues to cast a shade over our prosperity, but while it is painful to reflect on the sufferings and distress of those who have been visited with the calamities of war, it is gratifying to know that so large a portion of our Territory has escaped its ravages, and continues to prosper under the protecting care of Heaven, and the industry and enterprize of our citizens.

In pursuance of an act of the last session of the Legislative Council, an important measure has been adopted by the people of Florida. Delegates have been elected to represent them in Convention. Those Delegates have assembled, and are now deliberating on the provisions of a Constitution for our future government, as an independent and sovereign people. The opinions I have heretofore expressed on this interesting subject, in my annual communications with the Legislative Council, remain unchanged. I entertain no doubt with regard to the expediency of the measure, and the advantages which will result from a change in our form of government. Should the proceedings of the Convention be approved by the people, and our right of admission into the Union be acknowledged by Congress, it will become necessary, during your present session, to provide for the organization and support of a State Government.

Preparatory to this desirable event it is important that our revenue system should be revised and remodeled. At each session since I have been clothed with the executive authority I have endeavored to impress on the Council the urgent necessity of this measure. The imperfections of the present system are too glaring to require illustration by argument, and the objections it presents are too manifold to enumerate. The law imposes no penalty on the proprietor for a false, or imperfect return of his taxable property, nor is he required to make his return under oath, either as it regards the quantity or quality of the property assessed. Hence it is believed that a large proportion of the real estate in this Territory subject to taxation, has never been reported, and it often occurs that land is returned in a lower grade than is consistent with its character. Lands are required to be taxed according to their quality, and in most instances the assessor is compelled to depend on the description given by the proprietor. I therefore recommend an entire re-organization of this department, and the adoption of such measures as will insure the faithful assessment, collection, and disbursement of the public revenue.

The Reports of the several Banks of the Territory required by their charters to be made to the Executive, at the close of the year, not having yet been received, I am unable to give you certain information with regard to their present condition. I am happy to inform you, however, that it is believed they have generally resumed specie payments, and that in every other respect they are in good condition, and worthy of high credit.— They have done much to encourage the enterprize and industry of this community. They have sustained the credit and pro-

moted the interest of every class of society, and the general prosperity and success of our merchants, at a period when the whole commerce of the nation was prostrate, and embarrassment and bankruptcy every where else appeared, is mainly to be attributed to the accommodation and relief afforded by these institutions. Amidst the wreck of commerce, the destruction of credit, and the loss of public confidence, it is worthy of remembrance, that no commercial house failed within our Territory. Another important advantage has resulted from the establishment of the Banks. They have not only afforded facilities for the purchase of property, which has given every article an increased value, but they have promoted promptness in the payment of debts, and there is perhaps no part of the world where there is greater punctuality in the discharge of pecuniary obligations, than is to be found among the people of this Territory. The rich products of our soil, and the present activity of commerce, will soon enable our planters and merchants to return to the Banks the sums which have been borrowed, and when this shall have been done, the Banks of Florida will be in as prosperous a condition as the best monied institutions in our country. With the exception of two inconsiderable corporations which exploded during the past year, it is believed that the Banks of Florida have been conducted with distinguished integrity and propriety. Some of them may have been too liberal in relieving the wants and necessities of those who required relief; but this should not constitute a ground of complaint against them in that community which has experienced the advantages of this liberality. My opinion on the subject of Banks has heretofore been fully expressed. I am opposed to the policy of giving them unbridled liberty to issue bills beyond their power of redemption, and believe that every charter should provide for its own forfeiture, when the institution shall fail to redeem its notes according to their tenor. But I would not abolish them, even if we had the power to do so, or impose on them such restrictions as would destroy their usefulness to the people. I consider them indispensable agents for the promotion of commerce, and highly advantageous in the ordinary transactions of life. And while I would not advance them at the expense of individual interest, I regard them as having just claims to our favourable consideration and protection. So soon as the reports from the several Banks shall have been received, they shall be communicated to the Legislature with such remarks as their respective conditions may seem to require.

Since the last session of the Legislative Council, our frontier settlements have been greatly harrassed by the marauding bands

of the enemy. Notwithstanding the formidable and well appointed force employed by the Government in prosecuting the war, and in defending the frontier, the struggle with the Seminoles still continues with all the appalling incidents of savage warfare. During the last summer, numerous and distressing instances occurred, in which whole families were murdered by the midnight attacks of the enemy. The frontier inhabitants were kept in a state of perpetual danger and alarm, and although the troops of the Government were actively employed in their defence, it became necessary in the opinion of the Executive, on the urgent application of the people and the officers of the exposed districts, to order a portion of the militia into service. In Middle Florida these troops have been recognised by the Government, and most of them have been mustered and paid for their services. But in East Florida, where a much larger force was employed, the Commanding General did not consider them necessary for defensive operations. In consequence of which, the troops called out from the counties of Alachua and Columbia have not, and perhaps will not be paid by the United States. A correct return of the number of officers and men, or of their term of service, has not been received from the county of Alachua. But, the officer commanding the militia of Columbia county, reports a whole regiment to have been in service, amounting in the aggregate to seven hundred and ninety three officers and men. Whether so large a force was necessary for the defence of the settlements, is a question which the Executive is not prepared to decide, as the scene of operations was too remote to enable him to form a correct opinion on the subject. The laws of the Territory require the Executive, in cases of invasion or insurrection, to order out such portion of the militia as he may deem necessary for the defence of our citizens. But, relying on the protection of the army, it was not until repeated outrages had been committed, and a number of lives had been sacrificed, that recourse was had to the local militia for defence. In adopting this measure at a time when the Indians in small bands hovered on the skirts of every settlement, and every inhabitant was exposed to massacre, it became necessary to invest the officer in command with discretionary power, in relation to the number of troops to be employed, for the purpose of restoring tranquility, and to insure the safety of those who were exposed to danger. But, he was specially instructed to employ no larger force than in his judgment should be absolutely necessary for defensive operations. The tragical occurrences on that frontier for some time preceding, and subsequent to the date of this order, demonstrates the propriety of the course

pursued. It matters not how numerous may have been the regular force engaged on that frontier, or what may have been its efficiency, gallantry, and enterprise; the unquestionable presence of the enemy, the invasion of the country, and the murder of our citizens at their own threshold, or while engaged in cultivating their fields, without discrimination of age or sex, is the best proof that sufficient protection was not given by the army, and that it was necessary and proper that the militia should be called out in the defence of their families and their homes. Under these circumstances, it appears to me that there should be no hesitation on the part of the General Government in paying the troops thus employed. I am not disposed to encourage an extravagant expenditure of the public treasure, or to ask compensation for services which were never rendered. But, the troops in question having been called into service, consistently with the laws of the Territory, so far as services have been performed, I recommend that their claims for compensation be presented in an appropriate memorial to Congress, and that if they should not be paid by the United States, that the Territorial Government provide the necessary compensation.

In compliance with a resolution passed at the last session of the Legislative Council, requiring the Executive to furnish provisions for the suffering inhabitants of the frontier, a quantity of corn was purchased and sent to be distributed among the families of Alachua and Columbia, in East Florida, and to those of Walton and Washington, in West Florida. For information with regard to the amount of money expended for this purpose, I refer you to the reports of the Treasurer and Auditor of the Territory. It is gratifying to learn, that with few exceptions, the provision crops of the last year are most abundant throughout Florida, and although the frontier inhabitants have lived in the midst of danger and alarm, and were exposed to the utmost peril during the whole season of cultivation, their labor has been rewarded with abundance. With a degree of fortitude and perseverance, which reflects on them the greatest credit, they have maintained their positions under every trial and every vicissitude, and still present a formidable barrier to the further encroachments of the enemy.

Convinced by three years experience in prosecuting the war against the Seminoles, that they cannot be subdued by the plan of operations heretofore pursued, the Secretary of War has wisely resolved on a change of policy. The plan which he has judiciously recommended for the protection of the frontier settlers, by encouraging the return of those who have been driven from their homes, and organizing the

whole force along our exposed borders into companies and battalions for the defence of the inhabitants, and the energy and activity with which he proposes to prosecute the war to a successful termination, is calculated to give strength to the frontier, and confidence and security to the people of every portion of the Territory. If this plan is carried into execution, it is confidently believed that the whole country which has been desolated by the ravages of the enemy, will, in a short time, be re-occupied—the Indians will be driven, and confined within more narrow limits, and the scenes of rapine and murder with which we have been so frequently harrassed, will no longer be exhibited on our borders. Connected with this plan of defence, an important measure for the expulsion of the enemy has been recommended to Congress. It is proposed to grant a portion of the Public Lands to those persons who will obligate themselves to settle and improve them. For more than three years this desolating war has been maintained within our limits. Our most experienced Generals, and our best appointed armies have been unsuccessful in its prosecution, though all has been done which skill, bravery, and untiring perseverance could accomplish. Many of the Indians have been captured or destroyed—every portion of the enemy's country has been invaded—every village, every hut has been demolished—their fields have been laid waste, their cattle driven off, and the nation broken and dispersed in small fugitive bands, prowl through the wilderness, or hover on the frontier. But even in flight they are unsubdued, and often turn on their pursuers with furious energy, or fall with fatal desperation on the defenceless inhabitants of the frontier.—Experience has proven that it is not by the march and counter-march of armies through the enemy's country that he is to be expelled from the land of his nativity. He has only to avoid battle, to evade pursuit for a few days, and the army, exhausted with fatigue and hunger, retires before him, without the fire of a gun, leaving him again in undisturbed possession of the field. It is not from superior bravery or skill in the use of arms that the Indians have thus long resisted our power, but from their mode of life, the nature of the country they inhabit, the congeniality of the climate to their habits and pursuits, and its often fatal consequences to their pursuers. The spontaneous productions of nature supply them with abundant and nutritious food. The wild arrow root, the wild potatoe, the brier root, the cabbage tree, and the palmetto every where abound. The waters supply them with fish, and the woods with game. Hence want and famine, the attendant consequences of invasion in every other country and to every people, present no terrors

to the wandering Seminole. He finds security, food, and shelter in every hammock and in every swamp. My observation on the result of the measures heretofore pursued for the removal of the Indians, have brought me forcibly to the conclusion, that it cannot be done, without a change of policy. The forest must be subdued before the enemy can be finally conquered. Every inch of ground taken from him must be firmly held by permanent settlers who will cultivate the soil and make the wilderness their home. Under this system the savage would gradually retire before the approach of the civilized man. He would be compelled to abandon every portion of the country, susceptible of improvement, and if he should still retreat before the advancing settlements, and seek shelter in the barren wastes and inhospitable everglades, sufficient forces might in a short time be drawn from the settlements, and abundant supplies from the cultivated lands of the interior, to prosecute the war to a final close. In order to carry this plan into execution, and to insure the safety of the settlers, against the attacks of the enemy, to which they would otherwise be fatally exposed, they should in the first place be required to assemble at some convenient rendezvous, where after being armed, and equipped, for service, they should be organized into companies and regiments and elect their officers. They should then be marched in advance of the present settlements, and located in a compact form, on every portion of the unappropriated land, fit for cultivation, in such manner, as to give mutual protection and safety to each other. A portion of them should at all times be required to be under arms, and the residue to be employed in making their improvements, and in cultivating the land. They should be subject to the rules and articles of war and entitled to receive the pay, subsistence, and allowance for clothing generally given to troops in the service of the United States. And at the close of the war, each settler should be entitled in fee simple to one quarter section of arable land, to include his improvements as near as practicable. A further encouragement should be given to emigration, and settlement, by the passage of a prospective Pre-emption Law, conferring the right of purchasing at the Government price, one quarter section of land, on every actual settler, who shall locate himself before a certain period, and continue to inhabit and cultivate until the close of the war. This would invite the emigration of that portion of citizens, who may be unwilling to place themselves under the restraint of Martial Law, and would add to the number and strength of the settlements. Under this encouragement to emigration, it is confidently believed that 10,000 permanent settlers might in a

few months be located in the enemy's country, and in a short time the whole Peninsula would be so completely occupied as to leave no lurking place for the enemy. The adoption of this plan while it would most certainly bring this protracted and harrassing war to a successful termination would save millions of public treasure, and thousands of valuable lives. Another important advantage would result from this policy. It would give us population, wealth and political influence, and forever put to rest the question of your right to admission into the federal union.

I deem it my duty again to present to your consideration another subject which I regard with deep interest. Although our Territory has been for three years the theatre of an exterminating war, and our frontier has been so often lit with the torch of the enemy, our militia is almost without organization, and are equally ignorant of the principles of tactics, and the rules of discipline and subordination. No returns of the strength of the brigades or regiments have been made to the Executive for the last two years, and with the exception of one or two volunteer companies, which have been formed by the spirit and activity of a few individuals, it is believed that neither regiment, battalion, or company has been assembled for drill or inspection during the last year. The evil consequences resulting from this state of things have been too often experienced. Even in cases of the greatest emergency, when the Indians have been burning and plundering within fifteen or twenty miles of the capitol, we have frequently experienced a delay in raising men in the interior, often fatal to those exposed to danger, and greatly humiliating to our pride and character as a people. It is for you, gentlemen, to correct these evils, by providing appropriate punishments for every neglect of military duty. This important subject has often been brought to the attention of the Legislative Council, and the manner in which it has generally been disposed of has rather encouraged than restrained the spirit of insubordination and negligence. In assuming a state government, (if such should be the result of the deliberations of the Convention) we shall necessarily relinquish in some degree our claims on the General government for support and protection. The respectability and efficiency of the militia will become important to sustain the dignity, and insure the safety of the state, against foreign or domestic enemies. These objects, so highly interesting to every member of the community, cannot be attained without a proper organization, and a rigid observance of the rules of discipline. I most earnestly invite your attention to this subject, and hope it may claim your deliberate consideration.

Another branch having been added to our Legislative department since the last session of the Council, it becomes necessary for its accommodation to extend the public buildings. The capitol should be completed according to the original plan, or with such alterations as the Legislature may direct. The greater portions of the lands heretofore granted by the United States, for this purpose, remain undisposed of. Five quarter sections are situated in the immediate vicinity of the Capitol, and if sold in lots of five and ten acres, would produce a large fund for the erection of public buildings. Another quarter section continues unlocated, owing to the subsequent appropriations of the township in which it was originally selected, to the grant of General Lafayette. The Territory has yet a right to make this location, and I recommend that the Executive be authorised to appoint an agent for that purpose, with instructions to select a quarter section of the land recently acquired from the Apalachicola Indians, or any other unappropriated land which may be deemed more valuable.

At the last session I called the attention of the Legislative Council to the situation of the office of Commissioner of the Tallahassee fund, and recommended such an increase of the salary as would make it acceptable to an officer capable of performing its duties, and worthy of assuming its responsibilities. This not having been done, the office is yet vacant, and cannot be filled with competent talent, until adequate compensation shall have been provided by the Legislature. It is believed that the Territory has sustained much injury in the careless or prodigal management of this fund, by its former agents, and the business has been conducted in such a loose and irregular manner, as to require much labor in placing it in a condition to be understood, should the legislature determine not to dispose of the public property in the neighborhood of Tallahassee, it will become necessary to adopt more efficient measures to protect it from the waste and trespass to which it is daily exposed, and from which it has already received great injury. It should be placed under the special care of the commissioner, who should be required to prosecute the offender for every trespass.

The enclosure around the Capitol you will perceive is in a state of ruin and dilapidation. The appropriation heretofore made by the Legislative Council for putting it in repair was found entirely inadequate to its accomplishment. Hence no part of it has been expended for that purpose. I recommend an additional appropriation, and that the Commissioner of the Tallahassee fund be authorised to contract for a new enclosure, to be constructed of durable materials.

In my last annual message I called the attention of the Legislative Council to the subject of internal improvements, and recommended the adoption of a system for that purpose. Deeply impressed with its importance, I cannot forbear to invite your attention again to that subject. I enclose you herewith a map, accompanied with the suggestions of a distinguished officer of the United States Army, (Major General Gaines) on the subject of constructing rail roads as an auxiliary measure of national defence. He has proposed to connect the powerful states of the interior with those of the frontier by rail roads. The view which he has taken of this subject is highly interesting, and demonstrates the great advantages which would result from this system in time of war. The expedition and certainty with which the the largest armies, with the necessary munitions of war and provisions, may be transported from the interior to any exposed point on the frontier; the unity and sympathy it would create in the different states by this connection, and the strength and security it would give to every portion of our country renders it worthy of the consideration of every statesman and soldier. Nor are the commercial advantages arising from this system to be disregarded. It would open a direct channel of communication with the different sections of the interior. In the transit of intelligence, and for the purposes of travel, distance and space will be almost annihilated, and places remotely situated will be brought in close proximity with each other, giving strength to our bond of national union, promoting commerce, industry and intelligence throughout our vast dominion.

The Constitutional objections which may be presented to this important system might be reconciled by an united action of the General and State Governments. Although the United States may not have a right to invade the sovereignty of a State by the construction of public works within its limits, contrary to the wishes of its people, yet when the consent of the State has been obtained, it is believed there is no prohibitory provision in the Constitution which can militate against this system. The increasing wealth and resources of the States, and the vast commerce and revenue of the General Government is fully adequate to this important measure, and no doubt is entertained, that it will, in time, be accomplished. To enable us at a future day to unite with the neighboring States in the adoption of this or a similar system, both for commercial and military purposes, I recommend that a memorial be addressed to Congress, asking for a grant of a certain portion of land in aid of our internal improvements.

The committee on claims to whom was referred the petition and claim of James Burnside of Jackson county, for compensation for instructing certain poor children, in his said petition named, ask leave to report:—

That they have paid all the attention to the subject that could be expected under the circumstances. The committee commend the laudable and benevolent disposition of Mr. Burnside in bestowing so much care and attention to the education of a class of our youth, who from their indigence, would otherwise, perhaps, grow up in ignorance and in habits inconsistent with all our domestic interests and institutions, but whilst they speak thus favorably of the zealous efforts of the petitioner, the committee are not advised that there is any law of this Territory that would justify them in recommending his claims to be paid.

The committee would observe in the conclusion of their report that the subject of education is one of momentous importance, and they submit it to the consideration of this House, whether it would not be more compatible with its true dignity and the increasing demands of our fellow citizens, that a well organized system be adopted, by which all classes of youth might, as speedily as possible, have extended to them those advantages which alone can qualify them for all the useful employments of life.

The committee recommend the adoption of the following resolutions.

Resolved, That the committee on schools and colleges be instructed to report upon the propriety of authorizing the respective counties to designate annually a number of youth of hopeful talents, with a view to their instruction and qualification as teachers, preparatory to the carrying out such general system of education as may hereafter be adopted.

His Excellency the Governor, transmitted to this House the following communication—

To the Speaker of the House of Representatives, of the Legislative Council.

TALLAHASSEE, 23d January, 1839.

SIR.—In compliance with a resolution of the House of Representatives, passed on the 18th inst. requesting information with regard to the measures which have been taken, definitely to ascertain and mark out the boundary line between the Territory of Florida, and the State of Georgia, and whether any further legislation is necessary to enable the Executive to obtain a settlement of the dispute respecting said boundary line. I have the honour to inform the House of Representatives, that no definite action has been had on the subject, and the question is yet unsettled. Although the State of Georgia some years since, asserted a right to a more southern boundary, she has not assumed nor has she embarrassed the jurisdiction of the Territorial authorities, in any part of the country below the line established by the American commissioners under the treaty of 1796, between Spain and the United States. No doubt is entertained of this being the true boundary, and it is believed, it will be finally recognized as such by the State of Georgia. With regard to the propriety of further legislation for the purpose of settling this question, it does not appear to me a rightful subject of legislation on the part of this Territory. It is a question of right between the United States and the State of Georgia.

And although, the people of this Territory are immediately interested in its settlement, they can only petition, and the Legislative Council can do no more than present a memorial to Congress, on the subject, should such a measure be deemed expedient.

Very respectfully,

R. K. CALL, Governor of Florida.

Beg leave to report, that in the discharge of their duties, they have examined the several acts creating bank charters, also sundry acts amending and altering the same, but have not been able to find any legislation annulling, repealing, or otherwise extinguishing such charters as have been misused, or whose provisions have not been complied with, and recommend the passage of the following bill entitled "An act to prevent the future exercise of corporate privileges by certain banking corporations."

Which was concurred in, and said bill was read, and placed among the orders for a second reading, on Monday next.

Mr. Dozier from the select committee to whom was referred the petition of Benjamin G. Thornton, beg leave to report, That they have carefully examined said petition and carefully investigated the matter connected therewith, and have deliberately come to the conclusion that said petition is reasonable and just, and that the prayer thereof should be granted by this Legislative Council.

Your committee have arrived at this conclusion, from the simple fact that it would be a wanton breach of faith on the part of the Territory to refuse a compliance with the award which was made by the arbitrators appointed to decide the matter in controversy between the Territory of Florida and said Thornton—what are the facts in this case? In the year 1834 the Legislative Council passed an act appointing arbitrators to decide the matter in controversy; under the provisions of this act Edward Chandler, and James A. Berthelot Esqs., were appointed arbitrators. After a careful and minute investigation of the matters submitted to them, said arbitrators severally drew up their opinions in writing, which several opinions conflicted; and in accordance with the interest of the law, they called in an umpire, and agreed that Thomas P. Randolph, Esq., owing to his impartiality and honesty, should act as umpire.

The papers, documents, testimony and opinions of the arbitrators were all submitted to said umpire, who after spending sometime therein; reported that said Benjamin G. Thornton was entitled to receive of and from the Territory the sum of six thousand four hundred and eighty-five dollars. But by a clause in the law under which these arbitrators acted, it was made necessary to submit said decision or award to the auditor for his approval or rejection; this was accordingly done and the auditor refused to approve the same.

Now whether the disapproval of the auditor in a matter in which it is to be presumed he had no evidence, should weigh more than the deliberate opinion of the umpire who was sworn to decide according to the equity and justice of the case is a mat-

ter which your committee is perfectly willing to leave to the justice of this Legislative Council.

Your committee would therefore beg leave to report a bill entitled "An Act for the relief of Benjamin G. Thornton",—which report was concurred in by the House, and said bill was read, and ordered for a second reading on Monday next.

A bill entitled "An Act to incorporate the city of St. Augustine, and repeal the acts now in force, incorporating said city," was taken from the orders of the day. Mr. Jenckes moved that said bill be indefinitely postponed—the yeas and nays being required on said motion, were—yeas, Mr. Speaker, Messrs. Bannerman, Blackburn, Brett, Brown, Cooley, Dozier, Duval, Ferguson, Fitzpatrick, Gould, Jenckes, Manly, McCall, McRaeny, Tabor, Thigpin, Tradewell, Williams and Wood, 20,—nays Messrs. Burritt, McLeod, McNeill, Niblack, Priest, and Reed, 6—so said motion prevailed, and the bill is lost.

A bill entitled, "an act for the relief of Thomas Ross, and others, was read the second time, and ordered to be engrossed for to-morrow.

A bill entitled "An act to divorce Martha P. Blackwell from her husband Jacob A. Blackwell" was read the second time and ordered to be engrossed for to-morrow.

An engrossed bill entitled "an act to incorporate the Alachua Academy," was read the third time and passed.

His Excellency, the Governor, transmitted to the House the following communications.

EXECUTIVE OFFICE,
Tallahassee, Feb. 7, 1839. }

To the Speaker of the House of Representatives of the Legislative Council of Florida.

SIR:

In reply to the request contained in the Resolution, passed by the House of Representatives, on the 4th inst., requiring the Governor of the Territory to make a report on the state and condition of the Tallahassee fund, I have to inform the House of Representatives, that there is no document in the Archives of the Executive Department presenting the least information on this subject. By reference to the several acts of the Legislative Council, in relation to this fund, and prescribing the duties of the Commissioners, under whose management it was placed, it will be seen that those officers were required to make their reports alone to the Legislative Council; hence the Governor of the Territory has at no time exercised any superintending control over either the Commissioner or this fund. The Commissioner in office at the time the present Executive came into pow-

er was superseded, and the late Charles Austin was appointed his successor. No funds were turned over to this officer by his predecessor, and although he entered upon the duties of his station, with his usual diligence and fidelity, he unfortunately did not live long enough to unravel the labyrinth, and restore order, from the confusion in which the office was found. During the last year, Doct. Charles English was appointed to this office—a gentleman, in every respect, well qualified to perform its duties. He devoted himself for some time assiduously, endeavoring to make himself acquainted with the affairs of that Department, but finding his salary so entirely inadequate to the duties he was required to perform, he resigned, without making a written report of his proceedings. The bonds of the two last mentioned Commissioners are on file in the Executive Office, although no portion of the fund ever came to their possession. With the exception of that of Turbutt R. Betton, one of the former Commissioners, these are the only bonds of the officers of that Department, to be found in the Archives. The whole fund so far as it has been collected, has been exhausted, either properly, or improperly. It is believed, however, that there is a large sum remaining due from the purchasers of Town Lots, which might be collected under the administration of a competent officer, but until the Legislative Council shall have increased the salary of the office of Commissioner, the necessary talent, character, and industry cannot be procured for that station. It is an office, which, in all probability, will not be continued for any great length of time; but it is one, which, from its present confused state, will require much labour, and will impose high responsibility, for the next two or three years. The salary should correspond with the importance and labor of the office, and be such as would not only make the place acceptable to the incumbent, but enable him to devote his whole time to its administration. In my annual communications to the Legislative Council, for the last two sessions, I have invited attention to this subject, but it remains without farther Legislative action. I now recommend to the Council, a review and amendment of the several acts, prescribing the duties of the Commissioner, and regulating the sale of the public lots to individuals. Much of the confusion and irregularity which prevails at present in this office, may be attributed to injudicious and unwise Legislation. The act of 1824, under which the first board of Commissioners was organized, was plain, simple and comprehensive in its provisions, and little difficulty was found in carrying into execution. Robert Butler, Ambrose Crane and Thomas Penn, were the first Commissioners of this

fund, and the manner in which their duties were performed, was creditable to them, and has been highly satisfactory to the country. Their accounts with the Territory, were closed without difficulty, and they have left in the office, a comprehensive record of all the proceedings. With little amendment, the act of 1824 would present an excellent system for the future sale of the public property, and would give equal protection to the interest of the Territory, and that of the purchasers. The subsequent acts are more complicated in effect, less comprehensive, and more expensive in the administration of the office, as well as to individuals, and should be repealed.

Respectfully,

R. K. CALL,

Governor of Florida.

Whereas, a certain preamble and resolution was adopted by the late Convention of the Territory of Florida, assembled for the formation of a State Constitution, invoking the action of Congress upon the banking, rail-road and other corporations heretofore chartered by the Territorial Legislature.

Be it resolved, therefore, by the Governor and Legislative Council of the Territory of Florida, That the powers of the said Convention were limited to the formation and adoption of a Constitution for the People of Florida, with such other measures as might be needful, preparatory to its admission into the National Confeder-

acy; and that in assuming to represent the people in any other way, or for any other purpose, that body has travelled beyond the pale of its authority.

Resolved, That, in referring to Congress the chartered institutions of this Territory, which for years have been acquiesced in by the General Government, and especially, in invoking its power to repeal, amend, or alter the same, the said Convention has assumed to itself a prerogative never conferred upon it, or even contemplated by the people.

Resolved, That the allegations in the said preamble and resolution, against certain existing corporate institutions in this Territory, are loose, indefinite, not founded in fact, and such as could not with a due regard to impartial justice, as the same are presented, be met, and corrected by any tribunal competent to afford a remedy.

Resolved. That the assailing the established institutions of our Territory, and referring them to the action of Congress, is impolitic, unjust, and inexpedient, and calculated to impair their credit and usefulness; and that, while it is not denied that our Territorial banks referred to were in common with similar institutions at the South, driven to a suspension of specie payments, and more or less of them to a curtailment in their issues, a confidence is nevertheless entertained in their general good management, and their present as well as future solvency.

Resolved, That the adoption of the said preamble and resolution, being an exercise of authority not delegated by the people of this Territory, should be regarded only as the expression of individual sentiment, so far as the same were expressed by the members of said Convention.

Resolved, That our Delegate in Congress, be instructed to resist, by all proper ways and means, any measure in that body which may have for its object, the repealing, amending, or altering the charter of any of the aforesaid incorporated institutions of this Territory.

Some time being spent in the discussion of said resolutions,

On motion of Mr. Blount the House then adjourned until tomorrow at 10 o'clock.

Mr. Gould from the committee on Claims, made the following report:

The committee on claims, to whom was referred the petition of Christopher H. Edwards, Sheriff of Madison county, ask leave to report that they have duly considered the case set forth by the petitioner and are of opinion that he ought to have relief.

During the session of the Legislative Council of 1837, an

act was passed, entitled, "An act to take the census of the people of this Territory on the policy and propriety of becoming a state," the second section of which required the Sheriffs of the several counties, under an extraordinary penalty with provisions of rigorous enforcement and for trifling pecuniary consideration, to take the census and enumeration thereof in triplicate and forward the same to the Treasurer of the Territory, with the views to report the same to the Legislative Council at the succeeding session.

It is stated that few of the Sheriffs complied with this law, but it is satisfactorily shown that the petitioner, Edwards, faithfully returned the census and enumeration of the county of Madison, as appears from a certified copy thereof annexed to the Petitioner's petition, by which it further appears that the number of inhabitants at that time was one thousand two hundred and forty-seven.

The act contains prohibitory clauses by which no future Legislature shall allow more than three fourth's of one cent per name for the services rendered, and making further Legislation necessary to obtain any compensation whatever, no further Legislation appears to be had and the petitioner has, of course, remained unpaid.

The county of Madison is stated to be about forty miles in its length and breadth, and its settlements sparse; consequently it would seem that the labor was considerable in taking its census and of obtaining a personal knowledge of every inhabitant far greater in fact, and the responsibility far greater than the trifling sum of three fourths of one per cent. would compensate, your committee are of opinion that the laborer is worthy of his hire and especially where public officers perform well their public functions, should we hold out to them those encouragements which are the best guarantees to a faithful execution of the laws. Had this been the case far different results would have followed by knowing under the act of 1837 the exact enumeration of the whole Territory.

A subsequent act passed in 1838: Provided also for taking the census of the Territory and made an allowance of five cents for each name, and the petitioner asks that the same may be allowed to him, considering this equitable and just, the committee herewith report a bill.

Respectfully E. B. GOULD.
Chairman Com. Claims.

Which was read and concurred in by the House.

Also, the bill entitled "an act for the relief of Christopher H.

Edwards," in the above report alluded to, was read, and ordered for the second reading on to-morrow.

Mr. Gould, from the committee on claims, made the following report:

The committee on claims to whom was referred the petition of Francis A. Ross, sheriff of Calhoun county, ask leave to report:

It appears that the petitioner claims, in the case of one Henry Stevenson, \$210 59, as follows:

To guarding Henry Stevenson, self and 7 men 1 night at \$3 each	\$24 00
Charter of sloop Morgiana to carry H. Stevenson to Pensacola	80 00
Expenses of self and guard to and from Pensacola	34 59
Guarding H. Stevenson, self and 3 men 8 days at \$3 each,	72 00
	<hr/> \$210 59

That the said petitioner also claims \$240 in the case of Thomas Lewis, Abraham Tiedeman, and George Robinson, as follows:

To 10 days and 10 nights to self acting as guard to Thomas Lewis, Abraham Tiedeman, and George Robinson each at \$3 day and night	\$60 00
10 days of 2 men guarding same	60 00
10 nights 4 men guarding the same	120 00
	<hr/> \$240 00

The whole of these two claims amount to the sum of \$450 59.

The committee are pre-disposed to be liberal in their views in behalf of all public officers, where it shall appear that services have been faithfully performed and no adequate compensation been allowed, and cases of this description may occur. It seems to be unjust to impose duties and obligations on sheriffs, when those officers have not the means provided at hand to secure themselves and their securities from those penalties which the law inflicts when breaches occur: there may therefore be some degree of justice in some part of the claim of the petitioner, but to what extent the committee are not prepared, on account of the evidence of the necessary documentary evidence, to decide.

It appears from the certificates of Edward R. Gibson, Esq., that Lewis, Tiedeman, and Stuart were committed for murder and afterwards bailed; and that Stevenson was conveyed to Pensacola at some considerable expense to the sheriff, and was in his custody for sometime previous to his making his escape. Here then is an escape; and if the sheriff of Calhoun county legally discharged himself of his prisoner, he may have a just, proper, and legal claim upon him from whose custody and keeping the prisoner made his escape. If the prisoner made his escape from the sheriff, then surely that officer should have no claim against the Territory. But it

does not appear from any vouchers that the sheriff has made any payments, though he may have incurred responsibilities on the faith of the Territory; nor does it appear that this claim has been before the proper accounting officer.

This claim, as well as the one originating in the commitment of Lewis, Tiedeman, and Robinson, appears indefinite and improper, especially in the allowances to himself and the guard of \$3 to each. The law allows mileage to the sheriff as a full compensation, and should not give him an extra allowance for what it is his duty to do.

It may be, that if the sheriff had not sufficient power of the county at his command, that he should be compensated for adopting extraordinary means to secure his prisoners; but not having the means of arriving at just conclusions, the committee have directed me to report against the prayer of the petition, and ask to be discharged.

E. B. GOULD,
Chairman.

Which was read and concurred in by the House.

The Committee on Internal Improvement to whom was referred the petition of P. H. Swaim and others, citizens of the Town of St. Marks, and the adjacent neighborhood, having investigated the circumstances connected with said petition and weighed them with the care and deliberation due to a subject deeply involving the interests of so respectable a portion of the community as the citizens of St. Marks, by their Chairman beg leave respectfully to report,

That the Tallahassee Rail Road Company have adopted as the Southern terminous a point distant more than four miles from the Town of St. Marks, which is not nearer than half a mile to any part of said road.

That heretofore said Company have maintained on the river at the place where the road strikes it, a depot at all times accessible by boats and barges, and where produce destined for shipment were deposited by the Company, and goods for the interior received.

That the Company has declared its determination to transfer its depot and warehouses to the lower extremity of the road, which will enhance the expence, delay and trouble of communicating with the road hitherto complained of as so oppressive to the citizens.

The complaints of the petitioners are well grounded, and their case entitled to such relief as the Legislative Council have power to grant.

That the Rail Road Company have the undoubted and exclusive right of transporting goods on their own road, and establishing depots where they please. In these particulars therefore the Legislative Council can afford no relief.

But on the other hand there is no doubt of the power of the Council to incorporate the subscribers, and give them power to construct a road from St. Marks to any point on the Tallahassee Rail Road they may select, nor of the duty of the Council to protect as far as possible the interests of the great seaport of Middle Florida, from a monopoly which may break up, ruin and disperse its inhabitants and blight its future prospects.

With a view therefore of placing as far as possible the means

of self-protection in the hands of the citizens, the Committee propose the following bill.

D. McRAENY
Chairman.

Which was read and concurred in by the House.

Mr. Duval, from the finance committee, made the following report, to wit:

The committee on finance to whom was referred the petition of John Endeman, have had the same under consideration and ask leave to report.

Your committee have fully and carefully examined the petition and other accompanying papers, in that they see your petitioner was appointed tax collector for the county of Franklin, in the year 1837. Your petitioner states, at the December term of the Superior court, judgement was prayed for by the U. S. District Attorney against him, for his failure to pay in the Territorial taxes due for the year 1837, for the county of Franklin. He further states that a part of those taxes was due by citizens of Calhoun county. It appears to your committee that the county of Calhoun was not made until some time in the year 1838. Your petitioner further states that he received in payment for taxes the sum of three hundred and eight dollars, in bills on the Commercial Bank of Florida, for which bills he asks relief; when he further states that those bills were current and the Commercial Bank in good repute, that he has failed in collecting a large amount as per un-official document presented, owing as he states to the division of Franklin county, and the county of Calhoun being made therefrom; that many of those persons who were in arrears for taxes in Franklin county for the year 1837, by the division of said county previous to the payment of these Territorial taxes, became citizens of Calhoun county. He further states that he called on these individuals of Calhoun county for the amount of their taxes due previous to the division of Franklin county, and that they alledged in justification of their non-payment, the division of said county; and therefore your petitioner prays for relief. Your committee is not satisfied that the documents presented is sufficient to enable them to recommend a bill for the relief of your

petitioner. Your committee is of the opinion that the bills collected on the Commercial Bank when solvent should have been paid over or deposited in some solvent bank; he, having refused or neglected to do either, and as a matter of course, became his own banker, as he states the bank was then solvent and in good credit. Your committee is satisfied that the Commercial Bank continued to do business till sometime in June, 1838. Your committee believes it would be contrary to all Legislative usage, improper and inexpedient, establishing a bad precedent to accept as vouchers any document that is not properly authenticated. In conclusion, your committee are of opinion that the prayer of the petitioner ought not to be granted.

A. F. DUVAL,

EXECUTIVE OFFICE, }
TALLAHASSEE, Feb. 21st, 1839. }

To the Senate and House of Representatives of the Legislative Council of Florida.

GENTLEMEN—

Since my communication of the 7th inst., in which I expressed the anxiety I then felt for the safety of the frontier settlements, my worst apprehensions have been more than realized. One house has been robbed and burnt in an adjoining county. In this, and within ten or twelve miles of the capitol, two assaults have been made at night by the savages. Their unsuspecting victims were in each instance surprised in their domestic circle, and around their own firesides, by the stealthy approach of the enemy. The first signal of danger was the presence and terrific yell of the Indians, and the first discharge of their deadly rifles hurried them into eternity, leaving a single survivor in each case covered with wounds, to relate the horrid catastrophe which severed the fondest ties of nature. In one instance the mangled bodies of the father and mother, and two lisping babes, formed one funeral pile, in the house which had been the abode of peace and happiness. On yesterday another outrage was committed. Three waggons loaded with stores of the government were captured, plundered, and destroyed, and four human beings were butchered. But, gentlemen, the dark catalogue of Indian outrage and murder is not yet complete. The enemy still hovers on our borders, and other victims will be offered on the altar of their revenge. Your country presents a melancholy, a humiliating spectacle. Your frontier is defenceless. It exhibits a wide spread scene of ruin and desolation. Your militia are without organization, and ignorant of the rules of discipline and subordination. Your officers, with a few honorable exceptions, are deficient in the enthusiasm, the energy, and military ardor, which gives grace and utility to the character of the soldier. They want that zeal, promptitude, and decision so imperiously demanded by the present crisis.—Does this assertion require proof to give it currency? I call on

you to bear witness to its truth. You have been spectators of the scene. Day after day you have seen the expressmen spurring into your capitol with the sad intelligence of another and another massacre. You have heard the orders of the Executive to call out the militia for defence—you have heard his earnest and feeling appeals to the chivalry and patriotism of his fellow-citizens, and although those appeals have not been made in vain, but have been answered by many manly and generous hearts, there are others who have no concern, no sympathy, for those exposed to danger. The daily report of murder dies on the ear, but awakens no pity in the heart. The blood which flows from slaughtered innocence calls on them for revenge, but it calls in vain. The frantic mother, presenting her helpless infant in her arms, invokes their protection; but her invocations pass with the breeze on which they are borne, leaving no trace on the memory. Gentlemen, this is no fancied picture of our condition—it is the sad, the mortifying reality. For the last six days have I laboured in vain to raise by draft, under the laws of the Territory, a company of fifty mounted men, to defend the settlements within ten miles of the capitol. Not a dozen men of that number have yet appeared, notwithstanding the repeated reiteration of my orders. A listless apathy every where prevails, and the cold ear of indifference is turned to the most earnest solicitations.

Gentlemen, it is time to awake from our slumbers, to arouse from our lethargy, and put on the armour of our defence.—The moral dignity of the Territory, no less than the safety of the people, demands it of us. It is for you to set the first example. For three years have I proclaimed the deficiency of your military system; for three years have I invoked your aid for its correction, but no alteration, no improvement has been made. So little attention has been paid to military duty that, with the exception, the single and honorable exception of the county of Gadsden, there is not a well organized regiment of militia west of the Suwannee. In the county of Leon, at the threshold of the Capitol, there is scarcely a single field officer in commission. Numerous other offices are vacant. Under the present system an election for field officers cannot be held until after 20 days previous notice of the time and place. And ten days notice must be given of the elections to fill all other vacancies. Without officers drafts cannot be held, and while the enemy is plundering almost within your view, we must await the slow progress of time, and the compliance with empty formalities and ceremonies before we can ever prepare for defence. I fear, gentlemen, I cannot impress on you my own deep and

earnest feelings on this all-absorbing question. I fear I cannot make you comprehend my view of the importance of a well organized militia system. The great apostle of our liberty regarded it as the bulwark of our national safety—it is even more—it is the palladium of our domestic security. Look I entreat you, at your geographical position; look at the latitude in which you live; look at the long protracted struggle with the Seminoles; think of the danger of its example, and the horrors it may yet produce. Think of the lurking insidious abolitionist and remember the smoking ruins, and the bloody fields of St. Domingo. I pretend not to prophecy; I am no soothsayer, to foretell the approach of evil; but I warn you against the sloth, the apathy, the heedless negligence and the consequent insecurity which every where prevails. Without your aid the Executive arm is powerless. Your militia must be organized. They must be instructed in discipline and subordination; they must be prepared for action and ready for all emergencies. Your bleeding constituents call on you for protection—in their name I invoke your aid. I call on you to exercise every moral, physical, and intellectual faculty to save your country from ruin and humility.

Your fellow citizen,
R. K. CALL,
 Governor of Florida.

The committee to whom was referred the petition of sundry citizens of Leon County, have had the same under consideration and are of the opinion that the petition is just and reasonable; and that this Legislature should grant them their request: your committee are well aware that the people in the southern part of Leon County will be opposed to a separation from your petitioners. We have weighed well all the arguments both for and against a separation, and find the argument decidedly in favour of a separation. The scope of country which we propose to embrace within the limits of the new county, is one of the richest and most populous in the Territory, and will at this time number as many inhabitants as Jefferson County. We cannot see any injury which can possibly result to the people of Leon who are not embraced in the new county. It is true that a separation will curtail the fees of a few officers in Tallahas-

see. It will curtail the profits of the Hotels in Tallahassee, at certain seasons of the year; this is all the injury which can possibly result to the people of Leon from a separation; wherefore they beg leave to report a bill.

The select committee to whom was referred, on a former day a resolution instructing said committee to inquire into the propriety of establishing a commission to receive claims for losses sustained by the Indians, &c. ask leave to report,

That they duly estimate the importance of the subjects embraced in the resolution, and the advantages that would arise from a speedy action in behalf of our suffering fellow citizens, most of whom, particularly in the peninsular section of Florida, have been reduced from competence to a state of dependence and poverty.

It is right that the United States should make good these losses, and it seems to be correct in principle, that if after all the reasonable hopes of the claimants should fail, they should look to the Territorial government to advocate and support their rights by recommending the proper legislative measures.

The committee have noticed with great satisfaction, from the journals of Congress, that the subject to which the resolution re-

lates is now before that body, and that they are induced to believe from this circumstance, that a suspension of the action of the Legislative Council would be expedient at this time.

Therefore the committee ask leave to be discharged.

Respectfully submitted,

E. B. GOULD,

The committee of claims report unfavorably on the claim of L. J. Bell, who represents himself to be the Jailer of Gadsden county. The amount is \$87 62 1-2. It appears to the committee that \$45 37 1-2 would be passed by the Auditor were it authenticated by the proper certifying officers. There is no evidence of the correctness of the claim, but the certificate of the Judge of Gadsden county, who says that the account is just and correct. There is no evidence that the proper certificates cannot be procured; neither does it appear that the claim has ever been before the Auditor.

The balance of the claim amounting to \$42 25, is for medical attendance, nursing and the funeral expenses of the prisoner named, Jesse Goodman. These expenses are not recognized by any existing laws. They are justly chargeable against the estate of the deceased, and do not form any part of the costs in the case. It might be expedient to make some provision on the subject; and should this be considered necessary or proper, in every instance, it should be shown that the estate of the deceased was insufficient.

The committee ask leave to be discharged.

E. B. GOULD,

Chairman.

Which was read; on motion of Mr. Ferguson the House refused to concur therein, and said bill is placed among the orders for to-day.

Also from the same committee to whom was referred a bill for the relief of John I. Sands, reported unfavorably and asked to be discharged, which was concurred in by the House, and the bill is lost.

Also from the same committee to whom was referred a bill

entitled an act for the relief of L. F. Breaker, made the following report, to wit:

The committee of claims have under consideration the claim of L. F. Breaker.

An account is exhibited amounting to \$162, of Thomas Eastin, Marshal, for summoning witnesses. 65 4-100 appears to have been allowed and paid: the balance of course was disallowed; and the documents do not show what were the items. The whole account is considered not sufficiently authenticated, and there is nothing to show that L. F. Breaker has any interest in it.

The next account is for \$43 37 1-2 for the services of L. F. Breaker, as a Justice of the Peace, in twelve assault and battery cases, one murder, one case for aiding prisoner to escape, one case of vagrancy.

The account is certified in no way whatsoever, except by the magistrate, nor is it shewn what became of the prisoners. The cases of assault and battery form no charge against the Territory. The prosecutor is responsible if he fail to prosecute, and the defendant if he is guilty.

The committee ask leave to be discharged.

E. B. GOULD,

Chairman.

A bill entitled "an act for the relief of John Withers," was ordered to be engrossed for a third reading to-morrow.

mail contractors, facilities of the three forementioned counties and their citizens and the mail would be carried on more reasonable terms than it is at present.

Be it therefore resolved by the Governor and Legislative Council of the Territory of Florida, That our Delegate in Congress use his best exertions in establishing a Post Office at Eucheeanna, the county site of Walton county, and in procuring an appropriation of twenty-five hundred dollars for the repairing and opening of said road from Lagrange to Marianna.

APALACHICOLA, February 19, 1839.

Pursuant to public notice a meeting of the Chamber of Commerce and the merchants and citizens generally, was held at the Mansion House on Tuesday evening the 19th inst. to consider the reported movements in the Legislative Council, touching the banking and financial operations of the Territory. William G. Porter, Esq. was called to the chair, and H. R. Taylor, appointed Secretary. The following preamble and resolutions were made and severally adopted.

Whereas a spirit hostile to the banking institutions of the Territory was manifested by a party in the Convention lately assembled in St. Joseph, and it being understood that a similar spirit has manifested itself in the Legislative Council now in

session at Tallahassee, we deem it our duty to declare our opinions connected with these important matters. Therefore,

Resolved, That all rights or charters granted by Legislative bodies even when found to be wrong, should be approached with great diffidence and caution, we therefore deprecate the present rash attempt to alter or modify the charters granted to any of the banking institutions of this Territory, that have sustained themselves by a resumption of specie payments.

Resolved, That whereas the two banks, the Southern Life Insurance and Trust Company and Pensacola bank, at present established in this place, by their uniform business and banking like conduct, are entitled to the fullest confidence of the community, therefore we are resolved to support them to the utmost of our ability.

Resolved, That whereas, we are sorry to observe a spirit existing, hostile to the introduction of banking capital from other parts of the Union. For ourselves we declare it as our wish to see capitalists from the more wealthy parts of the country, and even from foreign countries, seeking employment for their capital here, and thereby promoting the best interests of this Territory.

Resolved, That where the proprietors of a bank are non-residents, it results as a matter of course that they are not the borrowers, from the bank, but on the contrary the whole banking capital is employed in facilitating the business operations of the community.

Resolved, That the chairman of this meeting forward a copy of these resolutions to our representatives in the Legislative Senate and Council at Tallahassee, with a request that they should give their support to the same.

Signed, WM. G. PORTER, Chairman.

H. R. TAYLOR, Sec'y.

\$640,87 1-2

It appears from the documents submitted, that Lewis Sutton was committed to the common jail of Franklin on the 30th May 1838, and that he was discharged during the late term of the superior court of that county, and the committee are satisfied that he continued in custody, 186 days. The fee bill of the Territory allow for this service 37½ cents per day.

The committee are also satisfied that the sum of 5,37½ cents has been paid by Kelly for clothing and medicines.

Also for the rent of a room for the purposes of a jail, there being no jail in the county, the sum of 30 dollars.

The law makes it the duty of the jailor to keep his prisoner safely but gives no authority to hire a guard, nor does it appear that a guard had been hired to secure the prisoner Sutton, but the jailor claims \$465. The committee do not think that it is correct in principle that jailors should make charges for personal services in guarding prisoners, and unless by some superior authority, that they should hire guards, and thus impose upon the Territory heavy expenses for keeping.

It does not appear that there was any necessity for hiring a guard, and if such necessity existed, it is obvious that the jailor should have hired some one besides himself.

The certificate of the Judge of the Superior court does not accompany the papers, nor do they appear to have been presented to the Auditor.

The committee consider it improper that private individuals, termed jailors, and as such run up accounts without official authority; and it is important to the protection of the Treasury, that legislation should be had on this particular subject, so that our jailors should be officially known, and officially responsible.

The committee have no doubt that the claimant has incurred expenses in good faith, and are willing to report favorably on so much of his account as they think should be paid, with the

understanding that this is not to be considered any precedent for the future.

For feeding prisoner 186 days at 37 1-2	\$69 75
" clothing and medicines, &c.	5 37 1-2
" rent of room six months	30 00

\$105 12 1-2

If the House should consider that the jailor is entitled to any thing for guarding the prisoner, then they add for this service the amount allowed in the Senate report.

\$139 50

\$244 62 1-2

And would recommend to strike out \$268 50 in the bill and insert \$244 62 1-2

Where there is no jail in the county, the law provides that the officer having in charge a prisoner, should take him to some county where there is a jail.

E. B. GOULD,
Chairman.

Which was read, and on motion the House refused to concur in said report, and said bill is placed among the orders.

On motion of Mr. Wood, said bill was indefinitely postponed. His Excellency the Governor, transmitted to the House the following communication:

EXECUTIVE OFFICE, }
Tallahassee, Feb. 27, 1839. }

To the Senate and House of Representatives of the Legislative Council of Florida.

GENTLEMEN: I have approved and deposited in the office of the Secretary of the Territory the following acts:

"An act to amend an act entitled an act relating to crimes and misdemeanors, approved Feb. 10, 1832."

"An act for the relief of Esther Sparkman."

And I have disapproved and herewith return the act entitled "an act to divorce Martha P. Blackwell from her husband Jacob Blackwell."

I have deliberately considered the facts set forth by the petitioner in this case, and although her claims to relief are deemed meritorious and excite just sympathy, I believe she will find that relief in the Superior court for the county in which she resides, and her application should be made to that tribunal. The laws of the Territory having conferred jurisdiction on the Superior courts to grant divorce in all cases, where just cause is shown. I consider it both unnecessary and improper for the Legislature to interfere with that jurisdiction. The institution of marriage is one of the most sacred and important regulations of society; it was ordained by the Creator of man for our happiness and elevation in the scale of being.—

Though a civil contract, it is of divine origin, and should not be annulled on trivial grounds; nor should too great facilities be offered for this purpose. The divine, as well as the municipal law of every civilized country, has erected certain barriers for the protection of the marriage right, and the good morals of society require that those barriers should not be passed except for substantial reasons. Cases frequently arise where justice to the injured party, no less than humanity, demands a dissolution of the marriage tie.

But the calm deliberations of a court of equity is better calculated to render important justice than a legislative body, too often excited to action by sympathy, and the ex parte testimony produced by the applicant. In the case of Esther Sparkman, when the bill of divorce has been approved, the relief required could not be obtained from the courts of justice. This individual resides in the county of Columbia, where, from the constant incursions of the Indians, and the consequent disturbed state of society, no term of the Superior Court has been held for the last three years, nor is there a prospect of a session being held in that county within any reasonable time for the future. These considerations have induced me to approve the act for her relief, when under different circumstances, even with the same meritorious claims to approval, it would have been rejected.

I have also disapproved and herewith return the act entitled "an act to authorize George Frederick Hamilton and Louis Schmidt to dispose of real estate and other property by lottery." This act appears to have been passed on the petition of Messrs. Hamilton and Schmidt asking for the right to dispose of certain valuable real estate in the city of New Orleans, by lottery. The application for this privilege, in a Territory beyond the jurisdiction of the State in which the property is situated, is calculated to create an unfavorable impression, which has not been removed by any explanation I have received on the subject.

The bonus of \$20,000, given to the Territory in consideration of this extraordinary grant of privilege, should be no inducement for an act which without it would be deemed exceptionable. The morals and character of the Territory should not become articles of exchange in the hands of foreign brokers. The Legislative Council has, during its present session, created the most severe penalties against other species of gambling, not more objectionable than the lottery system. I have most cordially approved of these enactments and cannot, consistently with my views of propriety, give my sanction to the unbounded license granted to Messrs. Hamilton and Schmidt, to draw lotteries within this Territory; the act for this purpose is therefore disapproved.

R. K. CALL,
Governor of Florida.

A message was transmitted to this House from his Excellency, the Governor, as follows:

EXECUTIVE OFFICE, }
Tallahassee, March 1, 1839. }

To the Senate and House of Representatives of the Legislative Council of Florida.

GENTLEMEN: I have approved and deposited in the office of the Secretary of the Territory the following acts:

"An act to incorporate St. Paul's Church, Quincy, Florida."

"An act to constitute a board of wardens, commissioners of pilotage, &c., for the port of Jacksonville and other places therein provided for."

"An act concerning the county site of Hamilton county."

"An act for the relief of Christopher Edwards."

"An act for the relief of Christopher Fletcher."

"An act for the relief of George Walker."

"An act to amend an act entitled an act to incorporate the subscribers to the Union Bank of Florida."

"An act to authorize the county court of Franklin county to levy a tax for building a jail in said county."

"An act to amend the act incorporating the city of St. Joseph."

"An act for the relief of Wilkins C. Smith."

"An act to authorize the trustees of the Calhoun Academy in the county of Madison to rent the school lands."

And I have disapproved and herewith return the act entitled "an act for the relief of Calhoun county." The preamble as well as the provisions of the act, assumes the fact that the Territory has no right to collect the tax on the sale at auction of certain lots in St. Joseph, in consequence of an exemption from such tax, specially granted by the Legislative Council, prior to the sale of the lots.—Now if the truth of this proposition be admitted, it is evident that the present Legislature has no right to cause to be collected or to appropriate the fund arising from such taxation. Nor does the willingness or unwillingness of the parties, to pay the amount, provided such dues and taxes be relinquished to the county of Calhoun for county purposes, change the nature of the case. If the parties are not bound to pay this tax into the Territorial Treasury, but are willing, nevertheless, to pay it to the county court for county purposes, they may do so under their own violation, while we have no right by law, to require it to be done.

But I entertain a different opinion from that expressed in the pre-

amble, and in the act itself. I consider the law exempting the sale of lots at St. Joseph from the tax required to be paid on all other sales at auction in this Territory, as unconstitutional. I believe the Territory has a just demand against the St. Joseph company for the amount of the taxes on the sale at auction, that we have a right to collect that tax, and that it would be an act of injustice to the other counties to appropriate the general revenue to local purposes in the county of Calhoun, when all others are compelled to resort to a county tax for the very same purposes; the act is therefore disapproved.

R. K. CALL, Governor of Florida.

Which was read and the bill therewith returned, laid on the table until to-morrow.

The Senate sent to this House for concurrence, a resolution authorizing the Governor to appoint an agent to go to Washington and make representations in relation to the condition of Florida, which was read and laid on the table until to-morrow.

The House then adjourned until to-morrow at 10 o'clock.

SATURDAY, March 2d, 1839.

The House met pursuant to adjournment a quorum being present the journal of yesterday's proceedings was read.

On motion of Mr. Wood a committee was appointed to wait upon the Senate, and ask that body to return to this House a bill entitled "An act to provide for the pay and mileage of the members of the Legislative Council and the officers thereof—Messrs. Wood and Duval were appointed said committee.

Mr. Dozier from the committee on enrollments, reported as correctly enrolled the following bills, to wit:

"A preamble and resolution requesting an appropriation of Congress for the repair of the Court House in Walton county.

"An act to establish a ferry across the Apalachicola River, at or near its junction, with the bay of Apalachicola."

"An act to create a body corporate and politic by the name of the St. Joseph chamber of commerce."

"An act to authorize James M. Harris, to build a dam and lock across the St. Marks River, and

"An act to incorporate the City of Pensacola," which were severally signed by the Speaker, and sent to the Senate.

Mr. Wood from the committee appointed to wait on the Senate, and obtain from them a bill entitled "An act to provide for the pay and mileage of the members of the Legislative Coun-

cil and for other purposes," returned from the Senate with that bill, which was placed first among the orders of the day.

Mr. Wood offered the following resolution.

Be it resolved by the Senate and House of Representatives of the Territory of Florida, That the joint resolution providing for the final adjournment of the Legislative Council on the 2d day of March, be rescinded for the express purpose of enabling the Governor to return the acts of this session which have been submitted to him, and for no other purpose, and that this Legislative Council will adjourn on the fourth day of March, instant.

Which was twice read, (the rule being waived) and adopted, and sent to the Senate for concurrence.

The Senate returned to this House, rejected a bill entitled "An act for the relief of Wm. G. Davis," and said bill is lost.

Also returned with amendments a bill entitled "An act to raise a fund by taxation for the education of poor children," which were concurred in by the House, and said bill is ordered to be enrolled.

Also returned a bill entitled, "An act to extend the jurisdiction of Justices of the Peace in this Territory" indefinitely postponed.

Also a preamble and resolution asking additional representation for Calhoun and other counties," adopted by the Senate without amendment, which were ordered to be enrolled.

Also a preamble and resolutions asking the establishment of a post office at Eucheeanna, and an appropriation for the repair of the road from Lagrange to Marianna, adopted by the Senate without amendment, which is ordered to be enrolled.

Mr. Wood from the committee on banks, made the following report:

The committee on banks to whom was referred the several reports of the Union Bank of Florida, the Southern Life and Trust Company, and the Bank of Pensacola, have had the same under consideration and ask leave to report, that they have examined the several reports with much care, and they believe that the three banks already mentioned have been managed with much skill and ability, and deserve the entire confidence and support of the people of Florida. The Southern Life and Trust Company have resumed payment of specie since November last, and the Pensacola Bank has also resumed since the first day of January of the present year. The Union Bank has resumed payment in specie of all her bills under the denomination of five dollars, and only wait to hear of the success of the President of the Institution who is now in Europe for the purpose of negotiating the bonds for the increase

of her capitol stock; and your committee have every assurance, and they believe that in a very short period of time, that that bank will resume the payment of all her bills in specie. The committee believe that the bank of Jacksonville is not in a situation to resume the payment of specie at present, and it is very doubtful if that bank will ever do so.

E. J. WOOD, Chairman.

Which was read—the yeas and nays being required on the adoption of said report, were yeas Mr. Speaker, Messrs. Burritt, Cooley, Dozier, Duval, Ferguson, Fitzpatrick, McCall, McLeod, McNeill, Priest, Reed, and Wood 13; nays Messrs. Bannerman, Blackburn, Brett, Browne, Gould, Jenckes, Manly, McRaeny and Tabor 9; so said report is adopted.

The Senate returned to the House, a bill entitled "An act to amend the several acts now in force in relation to elections," passed with amendments; which were concurred in by the House, and said bill is ordered to be enrolled.

Also a bill entitled "An act to authorise the Brunswick and Florida Rail Road Company to extend their improvements into the Territory of Florida," passed with amendments; the yeas and nays being required, on concurring with the amendments to said bill made in the Senate, were yeas Messrs. Bannerman, Blackburn, Brett, Browne, Dozier, Duval, Ferguson, Gould, Jenckes, Manly, McCall, McLeod, McRaeny, Tradewell, and Williams 14; nays Messrs. Blount, Burritt, Cooley, Fitzpatrick, Niblack, Priest, Reed, and Wood 8; so said amendments are concurred in and said bill is ordered to be enrolled.

The Senate returned to the House, a preamble and resolution, asking an appropriation for the repair of the road leading from Jacksonville to Rose's Bluff, adopted by the Senate without amendment, and it is ordered that said resolution be enrolled.

A bill entitled "An act to provide for the pay and mileage of the members of the Legislative Council, and for other purposes," was again taken up in committee of the whole; after some time, the committee rose, and Mr. Dozier, chairman, reported said bill amended; which was concurred in and said bill was again read the second and third times (the rule being waived) and passed, and sent to the Senate for concurrence.

The Senate sent to the House the following communication :

On motion of Mr. Dupont, a message is sent to the House of Representatives requesting the appointment of a committee of that body to confer with a committee of the Senate, in relation to the construction of the ninth joint rule. Messrs. Mar-

L. F. MOSHER,

The committee of conference made the following report, to wit :

The committee of conference between the two Houses in relation to the construction of the ninth joint rule, respectfully report,

That they have conferred together and cannot agree. The committee on the part of the Senate insists that the rule requires the transmission to the Senate of all papers, accounts, and vouchers, in relation to the compensation bill, to enable that body to pass upon such bill. The committee on the part of the House of Representatives insists that the Senate ought to regard the expenditures of each branch of the Legislative Council as within its separate control, and that the transmission of bills and accounts, embracing the expenditures of either House, can be of no service.

Respectfully submitted,

T. M. BLOUNT,
S. L. BURRITT,
WM. MARVIN,
C. H. DUPONT.

Which is ordered to be spread on the journal.

The Senate sent to the House for concurrence the following resolution:

To be inserted No. 1.

Which was read, the rule requiring that no business should

be acted on this day except the messages of the Governor, and objection being made, the House did not concur.

Mr. Blount moved that the joint resolution fixing the final adjournment for this day be reconsidered; the yeas and nays being required on said motion were, yeas Mr. Speaker—Messrs. Bannerman, Blount, Burritt, Cooley, Duval, Ferguson, Fitzpatrick, Manly, McLeod, Niblack, Priest, Reed, Tabor, Trade-well, and Wood, 16; nays Messrs. Blackburn, Browne, Dozier, Gould, and Jenckes 5; so said resolution is ordered to be reconsidered.

The following communication was received from the Governor—

EXECUTIVE OFFICE, }
TALLAHASSEE, March 4, 1839. }

To the Senate and House of Representatives of the Legislative Council of Florida.

GENTLEMEN: I have heard with regret that the revenue bill, passed by the House of Representatives, has been rejected in the Senate, and I have been unofficially informed that it is your intention to adjourn sine die to-day. After the long and laborious session in which you have been engaged, and the courtesy and promptitude with which you have attended to my various suggestions, I feel great reluctance in trespassing further on your time, or in delaying your anxious return to your families and your homes. But the imperative necessity which demands your action on our revenue system, will, I am persuaded, offer a sufficient justification for my addressing you again on this subject. I have not seen the bill you have had under consideration and cannot say how far its provisions are required by the present condition of the country, but of this I am assured, any alteration of our present system, if system it may be called, will be an improvement. The inequality of taxation, the irresponsibility of the officers, and the consequent dissipation of the public revenue are evils which demand correction from the representatives of the people. They have reposed their confidence in you and their interest requires your attention. Your Treasury has been exhausted by the expense of the late Convention. There are creditors who have just demands against it, which remain unpaid, while the revenue collected from the people is, in some instances, squandered by faithless agents. There is another subject of all-absorbing interest which is immediately connected with your revenue system. You have at the present session passed an act authorizing the Executive to raise 12 companies for the defence of our bleeding and distressed frontier, which so loudly and feelingly implores your protection, and you have authorized the Governor to negotiate a loan of \$500,000 for the pay and subsistence of your troops, the interest on the loan to be paid semi-annually. Without revenue this cannot be accomplished, and without the confident assurance that the interest will be paid, the loan cannot be negotia-

ted, and the defensive means you have provided for your war-worn and harrassed fellow citizens, who nightly slumber under the shade of the uplifted tomahawk, will prove but a fatal and deceptive hope: I therefore most earnestly desire that the joint resolution requiring the Legislature to adjourn on to-day, may be rescinded, that the Senate may reconsider the vote taken on the revenue bill passed by the House of Representatives, and that if there are any objectionable features in the provisions of the bill, that it may undergo such amendments as will render it acceptable to both Houses, and achieve the important object for which it was designed. A few hours of dispassionate consideration on this subject may produce the most advantageous results to your constituents.

Your fellow citizen,
R. K. CALL,
Governor of Florida.

Which was read and,

On motion of Mr. Blount, said resolution was amended so as to read as follows:

Be it resolved by the Senate and House of Representatives of the Territory of Florida, That the joint resolution providing for the final adjournment of the Legislative Council, on the 2d day of March, be rescinded for the express purpose of enabling the two houses to consider a revenue law, and of enabling the Governor to return the acts of this session which have been submitted to him, also for nominations, and for no other purpose, and that this Legislative Council will adjourn on the 4th day of March, instant.

Adopted by the House of Representatives, March 2d, 1839.

Attest JOS. B. LANCASTER, Clerk H. R.

And read, and adopted, and transmitted to the Senate for concurrence.

Mr. Wood moved for a reconsideration of the vote amending a resolution passed on Saturday, restricting this House to meet for no other purpose but receiving from the Governor, the acknowledgement of the acts submitted to him for approval or rejection, which motion prevailed.

On motion of Mr. Wood, a select committee is appointed, to go to the Senate, and ask to have said resolution returned; Messrs. Wood and were appointed. The committee returned with said resolution which had been acted on by the Senate, and they had concurred in the amendments passed by the House.

Mr. Wood moved a reconsideration of the amendments in said resolution.

Mr. Blount withdrew his amendments to said resolution, whereby it would remain as adopted by both Houses on Saturday the 2d inst. which is ordered to be certified to the Senate:

The Senate sent the following notification in answer to wit :

A message was received from the House of Representatives, rescinding the resolution to continue in session to-day, which on motion, was unanimously disagreed to by the Senate, and ordered to be certified to the House.

His Excellency the Governor transmitted to the House the following communications :

EXECUTIVE OFFICE, }
Tallahassee, March 2, 1839. }

To the Senate and House of Representatives of the Legislative Council of Florida.

GENTLEMEN: I have approved and ordered to be deposited in the office of the Secretary, the following acts and resolutions:

"An act to establish a ferry across the Apalachicola river, at or near its junction with the bay of Apalachicola."

"An act to raise a fund by taxation for the education of poor children."

"An act to authorize James M. Harris to build a dam and lock across the St. Marks river."

"An act to create a body corporate and politic by the name of the St. Joseph Chamber of Commerce."

"An act to provide for the appointment of weighers of cotton for the city of Tallahassee and town of St. Marks."

"An act to authorize the Governor of Florida to raise troops for the defence of the frontier, and for other purposes."

"An act to incorporate the city of Pensacola."

"An act to incorporate the Presbyterian Church in Tallahassee."

"An act to amend an act passed January 30th, 1839, entitled an act to incorporate the city of Apalachicola."

"A resolution to allow John P. Duval two thousand dollars for compiling the laws of the Territory."

"A resolution requesting the Delegate in Congress from this Territory to endeavor to procure an appropriation of five thousand dollars to repair the court house in Walton county."

"A resolution requesting certain individuals therein to serve as Delegates to the Convention to be held in Charleston, in April next."

"A resolution requesting the Delegate in Congress from this Territory to endeavor to provide for an additional member of the Legislative Council from the counties of Calhoun, Franklin, and Columbia."

"A resolution requesting our Delegate in Congress to procure the establishment of a Post Office at Eucheeanna, in Walton coun-

ty, and an appropriation of twenty-five hundred dollars to repair the road from Lagrange to Marianna."

"A resolution requesting our Delegate in Congress to endeavor to procure an appropriation of \$5,000 to repair the road from Jacksonville to Rose's Bluff."

R. K. CALL,
Governor of Florida.

EXECUTIVE OFFICE, }
Tallahassee, March 4, 1839. }

To the Senate and House of Representatives of the Legislative Council of Florida.

GENTLEMEN: I have approved and ordered to be deposited in the office of the Secretary of the Territory, the following acts and resolutions:

"An act to prevent the future exercise of corporate privileges by certain banking corporations."

"An act to alter and fix the terms of the Superior Courts of the Apalachicola District."

"An act to amend the several acts now in force in relation to elections."

"An act to amend the several acts incorporating the town of Marianna."

"An act in relation to public defaulters."

"An act to amend the several acts and in addition to the acts relating to county courts."

"An act to authorize the Brunswick and Florida Rail Road Company to extend their improvements into the Territory of Florida."

"An act to amend the several acts to incorporate the Lake Wimico and St. Joseph Canal and Rail Road Company."

"An act in addition to the military laws now in force."

"An act to incorporate the Bank of Apalachicola."

"An act to alter and fix the terms of the superior courts in the Middle District of Florida."

"An act to amend an act entitled an act to incorporate the St. Andrews and Chipola Canal Company."

"An act for the relief of Major Charles Mapes."

"An act to provide for building a Capitol and for other purposes."

"A resolution in relation to the publication of the laws in force in this Territory."

"A resolution requiring the Auditor to audit and pay certain accounts."

"A resolution requiring the Auditor of the Territory to institute suit against certain defaulting revenue officers."

And I have disapproved and herewith return the act entitled "An act to raise by lottery a sum of money to build a Masonic Hall in the city of Tallahassee, and for other purposes." The means by which the money is proposed to be raised is unworthy of the noble

object of its appropriation. I regard the lottery system as the most pernicious and demoralizing species of gambling, and I cannot give it my sanction, even for the meritorious purpose of erecting a temple dedicated to the holy St. John. I respect the ancient order of free masonry too highly to associate it with the desperate fortune of the gambling table, and should consider the temple of its mystery polluted by such an association; the act is therefore disapproved.

R. K. CALL,
Governor of Florida.

Which were read.

Also the following :

EXECUTIVE OFFICE, }
Tallahassee, March 4, 1839. }

To the Senate and House of Representatives of the Legislative Council of Florida.

GENTLEMEN: I herewith return a resolution passed by the House of Representatives requesting the Governor to certify and pay certain accounts, &c. With every disposition to comply with the wishes of the House of Representatives, on all proper occasions, I cannot give my sanction to the disagreement which appears to exist between the two Houses on the subject of appropriations. I am unwilling that an adjournment should take place until a harmonious understanding shall have taken place between them. I conceive it mutually due to both Houses, as well as to the country, that a good understanding should prevail between the two branches of the Legislature, and earnestly recommend that the joint committee be required to assemble and endeavor by bill to provide the proper compensation for the officers of each House. It is proper that I should add that I believe some of the payments requested by the House of Representatives to be made are more liberal than the specific appropriations of Congress will permit, and on this ground I could not comply with the request of the House.

R. K. CALL,
Governor of Florida.

Which was read; whereupon Mr. Ferguson offered the following resolution to wit: Resolved that the finance committee from the House of Representatives, confer with the same committee from the Senate, and the two committees together, draft a compensation bill, for the members and officers of each House and that the Senate be informed of the same. The rules of the House being unanimously waived, the above resolution was read and adopted by the House of Representatives, and sent to the Senate; to which the Senate returned for answer, "the Senate do not concur in the above resolution," which is ordered to be certified to the House of Representatives.

Also returned passed without amendment by the Senate a

bill entitled "An act concerning tax collectors and for other purposes," which was ordered to be enrolled.

Mr. Dozier, from the committee on enrollments, reported as correctly enrolled, "An act concerning tax collectors, and for other purposes," which was signed by the Speaker and sent to the Senate.

Mr. Wood moved that a committee be appointed to wait on the Senate and inform them that the House of Representatives have no further business before them, and are ready to adjourn and that the same committee inform the Governor that his communication of this morning has been under consideration and that a resolution was adopted by this House requesting a conference with a committee from the Senate which has been by them rejected; which motion prevailed, and Messrs. Wood and Burritt were appointed that committee, and reported as follows:

The committee appointed to wait upon the Senate and his Excellency, the Governor, report that they have performed that duty, and that the Senate in reply state that they will inform the House of Representatives when they are ready to adjourn. They also report that his Excellency, the Governor, was not at the Executive Office and have not waited on him.

E. J. WOOD,
S. L. BURRITT.

The following communication was received from the Governor:

To the Senate and House of Representatives of the Legislative Council of Florida.

GENTLEMEN: I have approved and ordered to be deposited in the office of the Secretary,

"An act for the relief of William Kelly."

Also, "An act concerning tax collectors, and for other purposes."

R. K. CALL,
Governor of Florida.

Which was read.

The Senate notified the House, through Messrs. Wright and Duval, that those gentlemen were appointed a joint committee on the part of the Senate to unite with a committee of the House of Representatives, to wait on the Governor and inform him, that the Legislative Council is now ready to adjourn sine die. Messrs. Wood and Burritt were the joint committee appointed for the House.

The committee for the House reported that the duty assigned them had been performed, and that they were authorised by the

Governor to say he had no further communication to make to the House, and that they were at liberty to adjourn.

Mr. Dozier was called to the chair, and Mr. Tradewell offered the following resolution to wit:

TREASURY DEPARTMENT, FLORIDA, }
OFFICE OF AUDITOR PUBLIC ACCOUNTS Jan. 17th, 1839. }
*To the Honorable the Senate and House of Representatives of
the Territory of Florida.*

The undersigned in compliance with law, has the honor to present his annual report of the state of the finances of the Territory.

Statement No. 1, herewith presented, exhibits the annual settlement with the Territorial Treasurer. The balance in the Treasury on the 30th November, 1837, was \$11,593 01
The amount received during the year, from all sources of revenue up to 30th November, 1838 8,439 35

Amounting to \$20,032 36
The payments during the same period amount to 12,304 72

Leaving a balance in the Treasury on the 30th November, 1838, of \$7,727 64

Statement No. 2, exhibits the sources and amounts of revenue returned to this office during the fiscal year ending the 30th November, 1838, and the expenses of criminal prosecutions in the several Judicial Districts.

Statement No. 3 exhibits the amount due the Territory from individuals amounting to \$43,134 45-100. During the past year a number of these balances were certified to the District Attorneys for suit. In several cases the attorneys have reported much difficulty in obtaining the official bonds of the receiving officers and in some that the bond when found was not taken in accordance with the requisitions of law.

Upon resolution No. 18, of the last Council for the relief of the suffering inhabitants of East and West Florida, there has been drawn from the Treasury and expended for that purpose the following sums, viz:

For West Florida \$1,166 18
" East Florida 3,639 37

The several receiving and accounting officers of the revenue are very remiss in making their returns at the periods required by law, and but little regard is paid to circulars from this office.

The report of a committee of the State Convention on the amounts and expences of that body has this morning been received, but has not yet been examined.

L. A. THOMPSON.
Auditor Pub. Accounts.
